

ERGO - 3D

**HINZ** *Mobile*

# Ergonomic in all dimensions.

For your health and your wellbeing; work sitting down or on your feet - a solution from HINZ.

## ERGO - 3D

### Full mobility and adjustable height

The mobile computer work station ERGO-3D supports your active and independent working style. You can easily switch between the sitting and standing positions while working, whenever your body demands it, and access everything you need anytime, thanks to the trolley's functional design.

### Your advantages:

- You can always decide where you work and whether to work sitting down or standing up.
- Any user can quickly find their own perfect working position.
- Easily adjustable working height and effortless positioning of the ERGO-3D mobile computer work station without the need for tools.
- Optimal power supply for complete autonomy.
- The ERGO-3D mobile computer work station can be easily integrated into your IT environment and equally easily adapted.
- A wide range of HINZ components and accessories gives you surprising flexibility in organising your work station.
